

Book House Will Deliver Any Book in Print ... and Do It Fast

Whether it is a book listed in Reference Services Review, CHOICE, Publishers Weekly or other journals, we will deliver any titles published in the United States or Canada and deliver them fast.

We take pride in the fact that several major academic libraries have made surveys which show that the average elapsed time of delivery is less on orders placed with Book House (names on request).

Our trained and competent staff is dedicated to our policy of "Concerned Service", which means that every customer is given personal service to see that no stone is left unturned in our efforts to serve you as quickly and accurately as is humanly possible.

And we are human. No computer will keep repeating the the same error of title, edition, price or credit for return.

Our discount schedules are competitive, naturally! Why not give Book House a trial order and find out what "Concerned Service" can do for you!

GALE'S STANDING ORDER SERVICE

- * Speeds new books to you and your patrons
- * Avoids wasting time on routine acquisition decisions
- * Insures automatic delivery of new editions and new volumes
- * Reduces order processing time

By placing standing orders for the up-to-date reference books published and distributed by Gale, librarians will be certain that their patrons will have prompt use of new editions and new volumes in continuing series.

Standing Order Service is available for *all* Gale books of a continuing nature, such as the titles listed below. New editions of selected books published by Europa Publications are jet-freighted from London to Detroit, and are available through Gale's Standing Order Service.

You may place standing orders for the following reference books. Write for our complete catalog for full descriptions of these and other titles available by standing order.

THE MANUFACTURER'S CLAIMS:

The [reader] has no complicated controls or touchy adjustments; maximum ease of operation is built into the reader. Just insert the fiche in the precision holding and transporting mechanism, flip the switch, adjust focus, and scan.

LIBRARY TECHNOLOGY REPORTS:

The design of the reader does not provide for a page indicator grid. The platen moves awkwardly and binds, especially when moving from side to side.

The user must reach to the left side of the reader and move a short arm back and forth to focus the image.

None of the controls are labeled. The user must experiment with the various levers and handles to learn how to use the reader.

The bracket holding the platen handle allows the film to catch between the bracket and glass, which can tear the film if the user is not careful.

Quoted from the manufacturer's literature.

From an evaluation of the same machine in the July, 1972 LIBRARY TECHNOLOGY REPORTS.

1975-76 EDITION JUST PUBLISHED!

ENCYCLOPEDIA OF ASSOCIATIONS

THE NINTH EDITION—completely revised, updated, and reset in a more legible type face—will be even more useful than previous editions . . .

Librarians consult the **Encyclopedia of Associations** first for sources of current, authoritative information, which associations are uniquely equipped to provide on thousands of subjects. Just published, the Ninth Edition includes some 20,000 changes plus 1,255 brand-new listings. Covered along with national nonprofit membership organizations are selected non-membership groups, foreign groups of interest in America, U.S. local and regional groups of national interest, and citizen action groups and governmental advisory bodies concerned with specific problems.

Volume 1, **National Organizations of the United States**. Over 12,600 of the 14,563 entries in the basic Volume 1 are full descriptions of

active associations. (Others are listings for inactive or defunct groups, pseudo-organizations, etc.) Active organizations are arranged in 17 subject categories: trade, agriculture, scientific, educational, public affairs, etc.

Information given in each entry includes the group's name, address, chief executive, phone number, purpose and activities, membership, publications, convention schedule, and other details.

The 40,000-item alphabetical and keyword index—which now refers to entries by number—lists associations both by proper names and under the keywords that best identify their fields of activity.

Volume 2, **Geographic and Executive Index**. The Geographic Section lists in state and city order all

the associations that are arranged in Volume 1 by subject. Included are addresses, phone numbers, and names of executives. The Executive Section lists by surname all the executives mentioned in Volume 1, followed by their titles, names of their organizations, complete addresses, and phone numbers. Each listing in both sections gives the number of the detailed organization entry in Volume 1.

Volume 3, **New Associations and Projects**. This quarterly supplement to Volume 1 is published during the period between the 9th and 10th editions in order to provide subscribers with details on the hundreds of new organizations constantly being formed to deal with new problems and concepts, or to try a new approach to old situations.

Reviewers have had high praise for previous editions of EA:

"Since its introduction in 1956, the *Encyclopedia of Associations* has earned its reputation as a cornerstone of any sound general reference collection . . . In a word, the *Encyclopedia of Associations* is a basic reference tool. All libraries should have it." (RQ)

"The only comprehensive source of detailed information on nonprofit American membership organizations of national scope." (Guide to Reference Books for School Media Centers)

"The largest directory of American associations currently available for library purchase . . . It is accurate and reasonably current. Recommended." (The Booklist)
